

Volunteers Needed In Rochester Community

Group 14621 Community Association Inc. needs volunteers to administer its FREE lead wipe tests within the 14621 neighborhood.

Continuous exposure to lead dust has dangerous effects on City residents, especially children. YOUR VOLUNTEERING will help residents to identify whether their homes pose potential health risks and will ultimately save those from developing serious health problems.

Before administering the tests volunteers are required to attend a simple lead safety-training program. Then volunteers will perform examinations for community residents who have requested a wipe test be done on their homes.

If interested call Group 14621 at (585)-266-4693 or email us at group14621@group14621.com.

*Available in Spanish upon request. Call us at 266-4693.
